Orderable Black Friday Sale 2025: Grab 30% OFF Your Online Ordering System!

If you've been waiting to add a proper online ordering system to your restaurant or food business website, this is your moment.

The **Orderable Black Friday Sale 2025** is here, and it's offering a brilliant 30% discount on one of WordPress's most trusted food ordering plugins.

No commission fees, no hidden charges—just straight-up savings on a tool that'll transform how you take orders online.

I've been watching Orderable grow over the years, and honestly, this is one of those rare deals where the timing couldn't be better for food business owners looking to take control of their ordering process.

⚡ Quick Deal Overview

Here's everything you need to know about this year's Orderable Black Friday offer:

- 🕐 **Sale Duration:** 24th November – 2nd December 2025

- 🎟️ **Coupon Code:** No coupon needed—discount applies automatically
- 🔗 **Grab the Deal:** **Click here to activate your 30% discount instantly**

This is a limited-time offer running for just over a week, so if you've been considering adding online ordering to your WordPress site, now's absolutely the time to make it happen.

About Orderable

Orderable is a WordPress plugin that transforms your website into a fully functional online ordering system—perfect for restaurants, cafes, bakeries, florists, and any food-related business.

Unlike third-party platforms like Uber Eats or DoorDash that charge hefty commission fees on every single order, Orderable gives you complete control over your ordering process, customer data, and profits.

Built to work seamlessly with WooCommerce, Orderable has earned the trust of over 2,000 stores worldwide. What makes it special? It's the flexibility and features that matter most to food businesses: delivery and pickup time slots, table ordering for dine-in customers via QR codes, customizable menus with dietary labels and allergen information, and real-time order management—all from one dashboard.

The plugin offers an app-like design that makes mobile ordering ridiculously easy for customers, whilst you maintain full control over delivery zones, opening hours, and order schedules for each location. Whether you're running a single cafe or managing multiple restaurant locations, Orderable keeps everything centralised on one website. Plus, there's a 30-day money-back guarantee, so you can try it completely risk-free.

Why This Black Friday Sale Is Worth It

Let's be honest—most online ordering platforms treat your profits like their personal ATM. Commission fees of 15-30% per order? That's mental. With Orderable, you pay once for the plugin and keep 100% of your revenue. Zero commission fees. Ever.

This Black Friday's 30% discount makes an already cost-effective solution even more attractive. When you compare paying a one-time discounted fee versus losing a chunk of every order to

third-party apps, the mathematics is rather straightforward. You could recoup your Orderable investment in just a handful of orders.

What I particularly appreciate about this year's deal is the timing—we're heading into the busiest season for food businesses. Getting your online ordering system sorted now means you'll be ready for the Christmas rush, New Year celebrations, and all those January health-kick salad orders. The 30% saving essentially pays for itself when you consider the commission fees you'll avoid on even a week's worth of orders.

Plus, Orderable comes with features that actually boost sales: checkout tipping (hello, extra revenue!), cross-selling with order bumps, and product add-ons that let customers customise their orders. These aren't just nice-to-haves—they're proven revenue drivers that work whilst you sleep.

How to Buy Orderable During the Sale

Getting your hands on this Black Friday deal is refreshingly simple. Here's exactly what you need to do:

1️⃣ Visit the Official Deal Page
[Click this link to head to the Orderable Black Friday offer](). The 30% discount will be automatically applied—no faffing about with coupon codes or wondering if you've done it right.

2️⃣ Choose Your Plan
Browse through the available Orderable Pro plans and select the one that fits your business needs. Whether you're running a single location or multiple sites, there's an option that'll work perfectly for you.

3️⃣ Complete Your Purchase
No coupon code needed for this sale—the discount is already baked in. Simply proceed to checkout and complete your purchase securely. Orderable accepts all major payment methods through their secure checkout system.

4️⃣ Download and Install
Once payment is confirmed, you'll receive instant access to download the plugin. Installation is straightforward, and Orderable will even install WooCommerce for you if you haven't got it set up yet. Their support team is brilliant if you need any help getting started.

Plans & Pricing Breakdown

Orderable offers flexible pricing to suit different business sizes and needs. During this Black Friday sale, you'll save 30% on whichever plan you choose. Here's what's available:

Orderable Pro Plans

The beauty of Orderable's pricing structure is its simplicity. You choose a plan based on how many sites you need to run and the level of support you require. All plans include the core features that make Orderable such a powerful online ordering system—delivery and pickup time slots, table ordering, customizable menus, order management, and integration with all WooCommerce payment gateways.

Single Site Plan
Perfect for restaurant owners with one location. You get all the essential features to start taking orders online immediately, including the app-like design, WhatsApp and SMS notification capabilities, and the ability to add product add-ons and cross-selling features. This plan typically suits independent cafes, single-location restaurants, or food trucks looking to expand their ordering options.

Multi-Site Plans
If you're managing multiple restaurant locations or you're an agency building sites for clients, the multi-site options give you the flexibility to deploy Orderable across several WordPress installations. Each location can have its own customized delivery services, opening hours, and delivery zones—brilliant for chains or franchises where each location operates slightly differently.

Agency and Developer Options
For agencies and developers working with multiple food business clients, there are unlimited site options available. These come with priority support, which is invaluable when you're managing several client sites and need quick responses to technical questions.

Note: Exact pricing varies by plan tier. Visit the official sale page to see current discounted rates with the 30% Black Friday reduction already applied.

Extra Perks & Features

Beyond the core online ordering functionality, Orderable packs in some seriously useful extras that make it stand out:

🎯 Commission-Free Forever

This bears repeating: unlike food delivery apps, Orderable doesn't take a penny from your orders. You pay once for the plugin, and every order after that is 100% yours. Over a year, this saving alone can be worth thousands of pounds.

💳 Checkout Tipping

Add customizable tip prompts at checkout. Research shows customers are often happy to tip for excellent service—Orderable makes it effortless for them to do so, boosting your average order value.

🔳 WhatsApp & SMS Notifications

Keep customers informed about their order status through their preferred channels. Send notifications when orders are confirmed, being prepared, out for delivery, or ready for pickup. This level of communication builds trust and reduces "where's my order?" calls.

🍕 Product Add-Ons & Customization

Let customers build their perfect order with toppings, sides, and extras. Whether it's adding extra cheese to a pizza or choosing a side salad with a sandwich, these customizations increase order values whilst giving customers exactly what they want.

📍 Multiple Location Management

Running several restaurants? Manage them all from one WordPress site. Customers select their nearest location by postcode, and each location can have unique delivery zones, opening hours, and menus.

🎟️ QR Code Table Ordering

Serve dine-in customers without needing a separate app or ordering system. Generate QR codes for tables, and customers can browse your menu and order directly from their phones. Orders come straight through to your kitchen—no extra hardware required.

🔌 WooCommerce Integration

Full access to WooCommerce's ecosystem means you can use any payment gateway (PayPal, Stripe, Apple Pay, Google Pay, etc.), manage inventory, set up loyalty programmes with the Points and Rewards integration, and use countless marketing tools.

🎨 Page Builder Compatible

Works with all major WordPress page builders—Elementor, Gutenberg, Beaver Builder, you name it. Design your ordering pages exactly how you want them to look, maintaining your brand identity throughout the ordering experience.

✅ 30-Day Money-Back Guarantee

Not completely satisfied? Request a full refund within 30 days. It's a no-risk way to test whether Orderable is the right fit for your business.

Frequently Asked Questions

When does the Orderable Black Friday sale start and end?
 The sale runs from 24th November through 2nd December 2025. That's just over a week to grab your 30% discount, so don't leave it until the last minute!

Do I need a coupon code for this Black Friday deal?
 No coupon code is required. The 30% discount is automatically applied when you visit through the [official deal link](#) during the sale period.

Does this discount apply to renewals or just new purchases?
 This Black Friday offer is typically for new purchases. If you're an existing customer looking to upgrade or renew, it's worth contacting Orderable's support team to see what options might be available.

Will Orderable work with my existing WordPress theme?
 Yes! Orderable is designed to work with any WordPress theme or page builder. You can customize the look and feel to match your existing website design perfectly.

What happens after the 30-day money-back guarantee expires?
 After 30 days, standard refund terms apply. However, with over 2,000 stores trusting Orderable and brilliant customer support, most users find it meets their needs well within that trial period.

Conclusion

The **[Orderable Black Friday Sale 2025](#)** is genuinely one of the best opportunities this year to take control of your online food ordering without surrendering your profits to third-party platforms. A 30% discount on a commission-free system that keeps working for you order after order? That's a proper bargain.

Whether you're a restaurant owner tired of paying excessive fees to delivery apps, a cafe wanting to offer pickup and delivery options, or a bakery looking to streamline online orders, Orderable gives you the tools to do it professionally—without the ongoing costs that eat into your margins.

The sale ends on 2nd December, so you've got just over a week to make your move. Don't let this opportunity slip away. **[Grab your 30% discount on Orderable now](#)** and start the new year with an online ordering system that works for you, not against you.
